

Benefits of joining the **COMFORT**age Community Forum (CCF)

Joining the **CCF** offers a multitude of benefits tailored to the diverse needs and interests of its stakeholders. It provides **a shared space of meaningful engagement, collaboration, and innovation**, ultimately enhancing the quality of care and support for individuals affected by **dementia and frailty**.

FOR END USERS

Health and Care Professionals, Health and Care Providers, Users' Associations, Patients, Informal Carers.

Joining the CCF provides opportunities for:

- Accessing the **latest research**, best practices, and innovative solutions for managing **dementia** and **frailty**.
- Connecting with others who share similar experiences and challenges, providing mutual **support** and exchange of practical advice.
- **Contributing** insights and experiences that can shape ongoing **research and inform policy decisions**.
- Exploring **educational opportunities** to **exchange** effective **strategies and techniques** with peers, improving overall care quality.

FOR POLICY MAKERS AND REGULATORS

Policymakers and Regulators, Standards and Certification Bodies, Health Care Professional Bodies and Legal-ESG Companies.

Joining the CCF provides opportunities for:

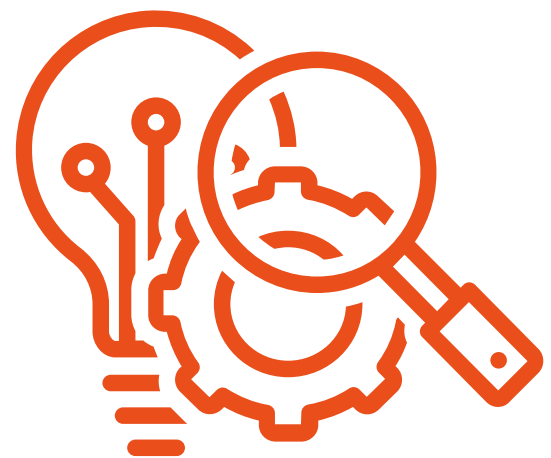

- **Accessing** comprehensive data and evidence-based practices to guide **policy formulation and regulatory frameworks**.
- **Engaging directly with end users and providers** to understand their needs and challenges, ensuring policies are responsive and effective.
- **Collaborating with researchers and other stakeholders** to develop integrated approaches to dementia and frailty care.

FOR RESEARCH AND INNOVATION

Researchers, Relevant Projects, Scientific Societies.
Joining the CCF provides opportunities for:

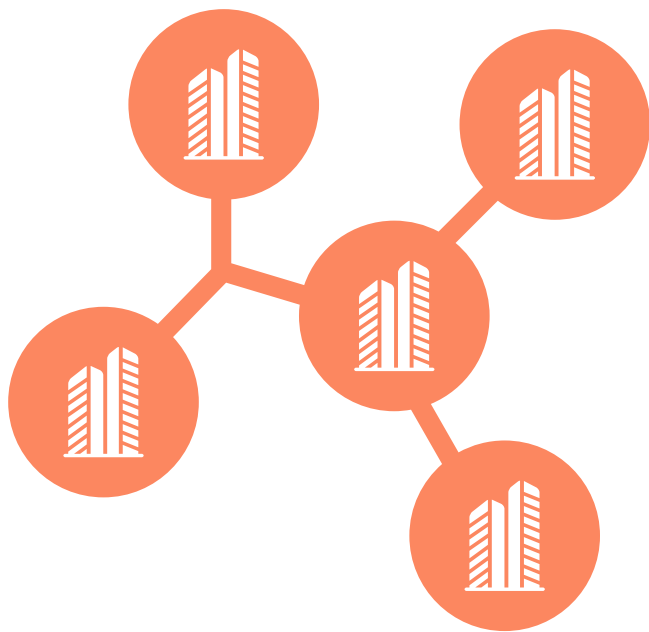

- **Being engaged with collaborative Research Opportunities** by connecting with a diverse community of researchers, clinicians, and policymakers to foster interdisciplinary collaborations that address the challenges of dementia care and aging.
- **Accessing a wealth of data and resources** for conducting cutting-edge research in dementia and frailty. This data sharing will follow all GDPR procedures.
- **Increasing the visibility and impact of research** findings through the forum's network and channels.
- **Receiving constructive feedback on research and innovations** from a diverse community of stakeholders.

FOR SUPPLY SIDE

Digital Health and Health Tech Companies/SMEs, Digital Health Clusters.

Joining the CCF provides opportunities for:

- **Gaining insights into the needs and preferences of end users and care providers**, guiding product development and innovation.
- **Connecting with potential partners, customers, and collaborators** within the health and care ecosystem.
- **Demonstrating new technologies and solutions to a targeted audience** of stakeholders interested in dementia and frailty care.
- **Staying informed about the latest standards and certification requirements**, ensuring products meet regulatory expectations.

Prediction, monitoring and personalized recommendations
for prevention and relief of dementia and frailty
